

Rowen

For Rowen, designer Brian Graham took inspiration from architecture and landscapes to create a graceful, inviting form that evokes a sense of beauty and peace without sacrificing warmth.

People need environments that calm and inspire, and Rowen helps create those spaces. The thin, faceted legs create a sense of lightness and poise, while the softer shapes of the cushions provide comfort.

Bringing the comfort of home

The most enduring pieces of furniture don't just inspire people, they also support them. The relaxed posture of Rowen gives it the versatility to create sophistication in diverse settings.

Crafting intentional details

In order to achieve a classic tufted cushion, we created leather buttons in the shape of a diamond. This shape references the rotated angle of the faceted metal legs. Similarly, the strong grain of the ash legs introduces a natural texture to this modern piece.

Rowen

Features

- Plywood/hardwood frame
- Sinuous springs in seat
- Fully upholstered
