

# 1500JS QUEST SERIES

## 1500JS QUEST SERIES

Quest is defined as a search of pursuit made in order to obtain something. For ECD's 1500JS Quest Series, the pursuit was to create the most comfortable and ergonomic office chair in the industry. Working in conjunction with a major corporation's ergonomic team and their industrial therapy group. ECD Developed this family of chairs to give each user unparalleled support and comfort. Each chair puts more support down the center of the back, in the thorax area to keep the proper curvature of the spine while sitting properly upright.
