T1-L5 Free Shoulders® design

The **T1-L5 Free Shoulders®** shape of Junior's backrest supports the natural curve of your spine – lumbar and thoracic. It also provides a more beneficial shape for your shoulder blades when you recline. It allows you to release yourself from the "hunched-shoulder" position you can too-easily fall into when you are constantly keying or mousing. Your chest expands and you can breathe more air into your lungs.

Due to the constant evolution of, and additions to, product lines, Keilhauer encourages reference to www.keilhauer.com.
