A versatile table collection

Applause is a versatile collection of tables designed to complement any environment. With hundreds of combinations, you can choose the right shape, size, finish, and leg style to fit your space, activity, and budget. In a tech-driven world, the need for power and data drive our movement throughout the day. Technology is easily integrated into any table through a variety of power and data options. Enable active learning even in tight spaces as the tables have the option for a nesting top and foldable base.

Encourage engaged, interactive learning

Learning can be a challenge, especially when faced with hours in the same environment. Applause can create a mobile learning environment that encourages engaged, interactive learning. Wellness is also supported through various adjustable height base options that are easy and intuitive to the user.
