MESA

MESA pairs integrated technology with an uncompromising modern design for the meeting spaces of today and tomorrow. Innovative perimeter power and data access drawers deliver a seamless, intuitive interface that is literally at your fingertips. Table surfaces are pure in material and form, with cantilevered spans engineered for beauty and comfort.

Table surfaces are pure in material and form, available in any size and shape imaginable in stone, glass, wood, and more.

LEFT | Eliminate surface clutter and comfortably access technology with innovative concealed drawers.

RIGHT | Power and data cables are cleanly concealed within polished chrome bases supporting an etched glass surface.

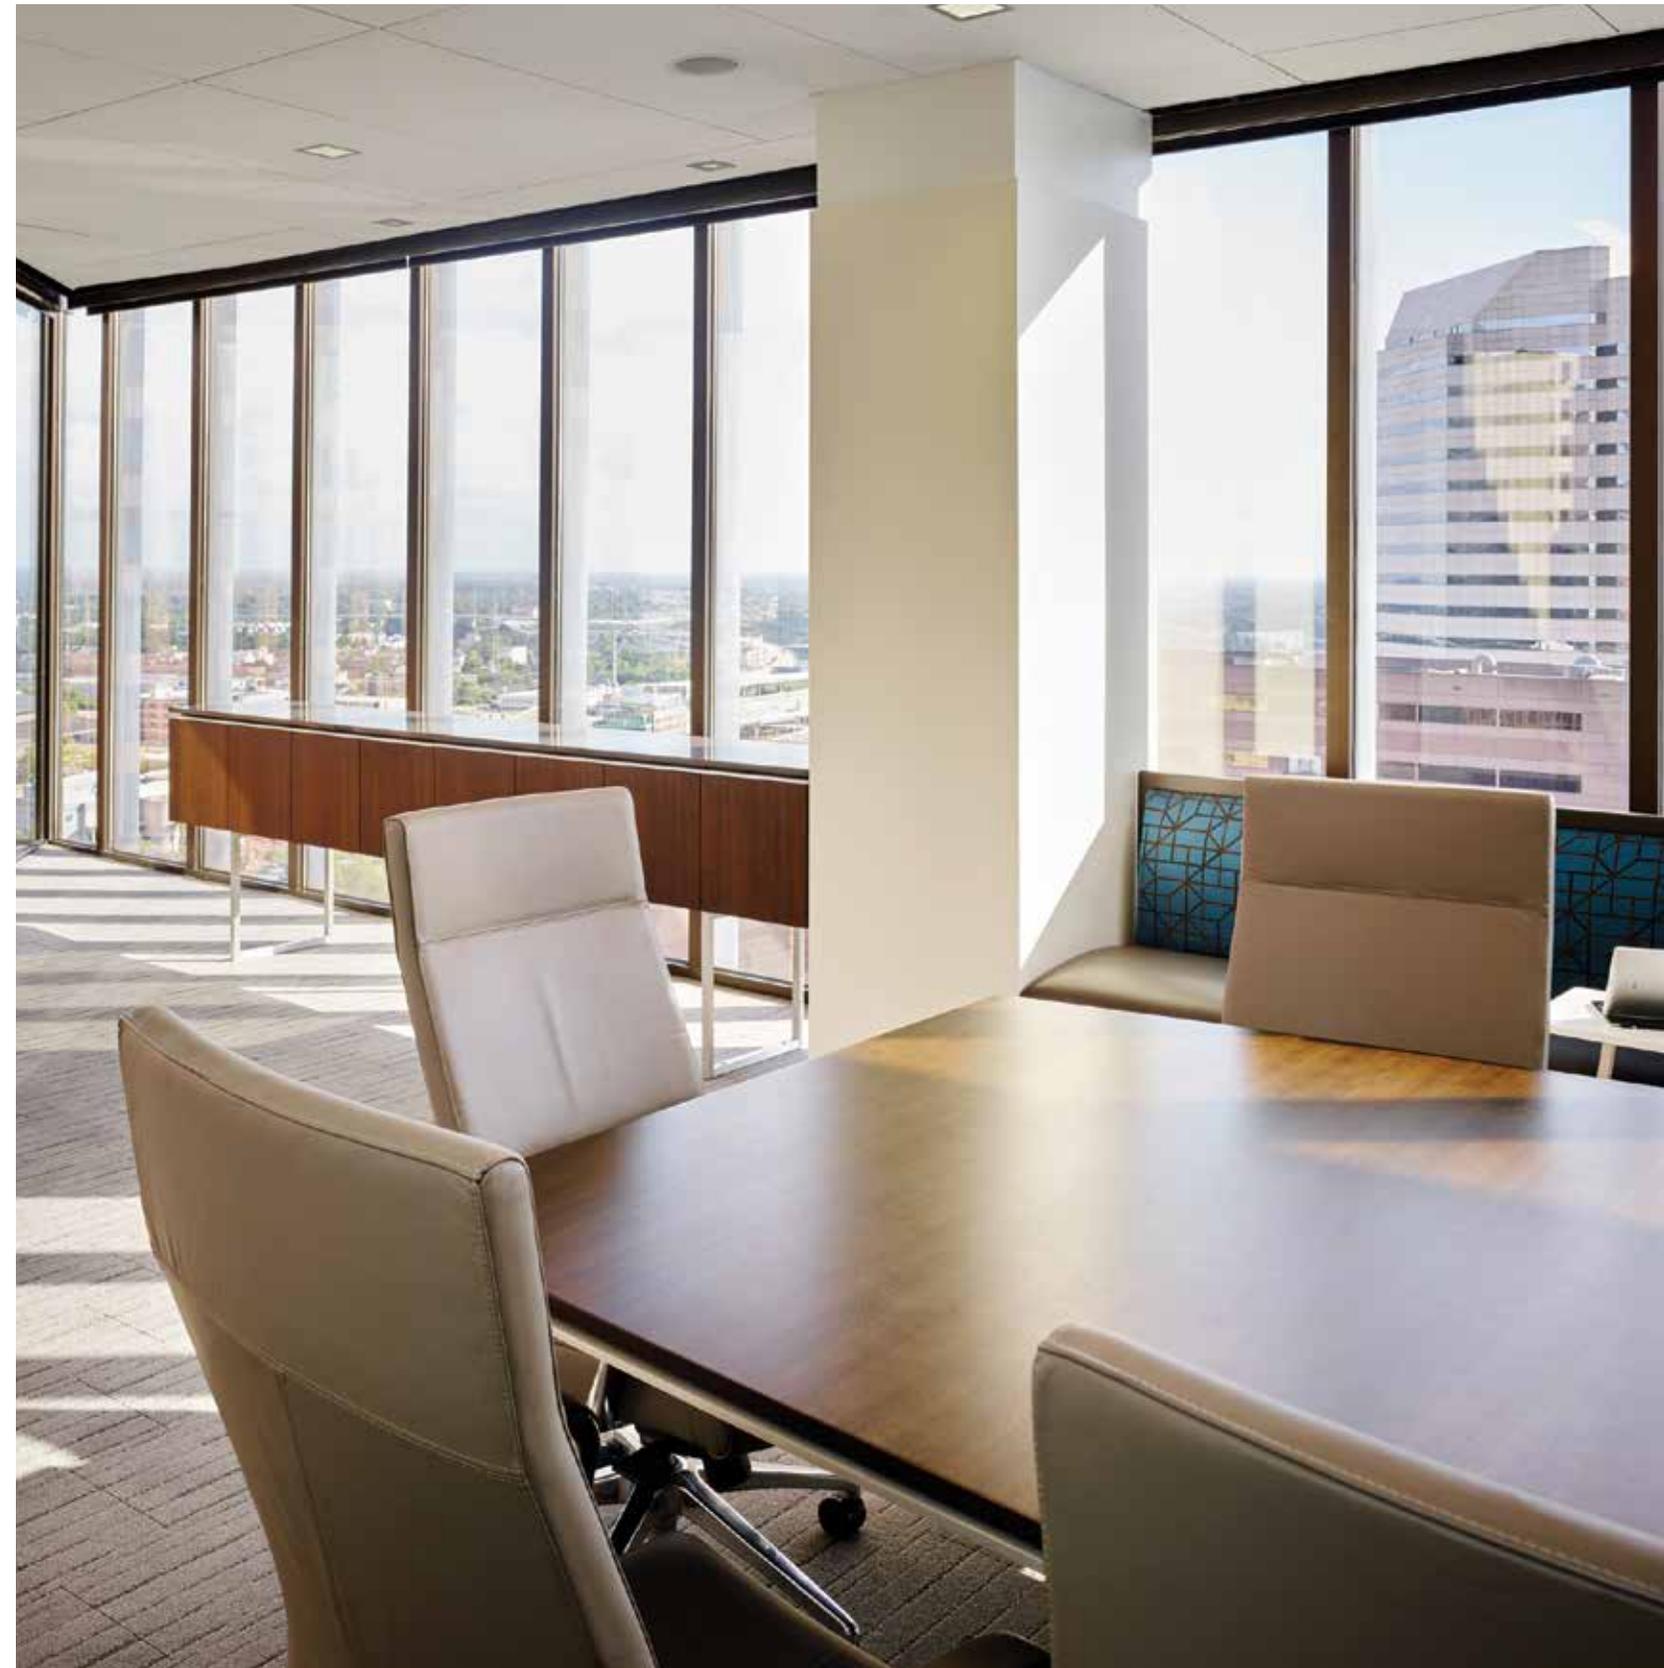

Mesa cantilevered spans extend from a continuous base expertly crafted with premium hardwoods and grain-matched veneers.
