SKILL

Reconfigurable tables that are more graceful, more durable, and more beautiful than ever before. Offered in three leg frame versions with innovative surfaces and thoughtful connectivity, SKILL is the expert in dynamic, flexible meeting space.

SKILL is available in both laminate and genuine wood veneers on amazingly light-scale solid composite worksurfaces. These 1/2" thick table surfaces provide superior durability and impact resistance and are ideal for heavy-use areas. The exceptionally designed aluminum base results in a table that is built to last and beautiful to behold.
