Tala Lounge Chairs, Tala Basket Table with Green Powdercoat and Natural Beech Top and Albany Sofas

tala lounge chair

A study in angles and intersections, this piece offers a modern refresh to the classic mid-century ideas. With a strong emphasis on profile, the Tala is a timeless yet unique solution to your lounge chair needs.

Made with a custom, sustainably harvested laminated beech veneer lumber to create a durable and seamless arm. The exposed beech cross-layers add a rustic and industrial feel to the clean and modern upholstery. The exceptionally high strength laminated beech veneer lumber allows for a structure with significantly slimmer dimensions that lend to an overall lightness of design.

Tala Lounge Chairs and Tala Basket Table with Red Powdercoat base and white laminate top.

Amanda Swartwout

The Tala Lounge chair is a collaboration with design engine Studio | BRiNK. Based in Omaha, Nebraska, Studio | BRiNK is a woman-owned, award winning design firm dedicated to delivering integrated interior solutions. BRiNK pushes the edge of what is accepted and what is possible in the name of developing solutions.

Creative Director Amanda Swartwout found her inspiration for the Tala Lounge Chair in vintage silhouettes and geometry. Creating a congruous balance of negative and positive space the Tala Lounge Chair is an essential design statement.
