

Designed by Christopher Wright. VESTRADA™ is captivating in its look, compelling in its innovation and value, and sets a new standard for private office and open plan casegoods.

Krug offers an extensive range of furnishings for private office and conferencing, and a comprehensive seating collection. A company-wide program is in place to reduce the impact of our products and processes on the environment. For a copy of this program, or more information about products, please contact your local Krug representative, or Krug Customer Service. We guarantee the quality of our products, and your satisfaction, with a comprehensive 10-year warranty. VESTRADA™ meets or exceeds the testing requirements of ANSI/BIFMA X 5.5-1998.

VESTRADA™ - ADVANCED INTEGRATION WITH OFFICE TECHNOLOGY

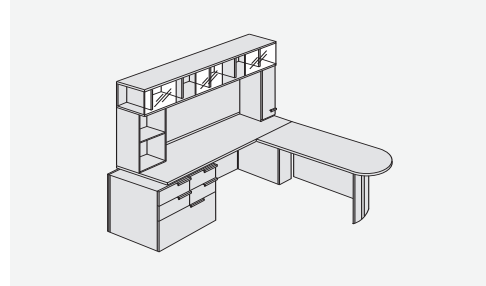

- A) Krug's V-beam supports VESTRADA™'s floating top, providing concealed but easily-accessed wire management cavity to channel cables through a four trough system.
- B) The category 6 PowerPort worksurface module provides immediate plug-in capability for voice, data and electrical connections, as well as cable storage.
- C) Hinged modesty panels with wiring cutouts provide quick access for wiring to wall and floor monuments.
- D) On freestanding desks, pedestals and base supports have wire management channels to connect cabling to floor connections.

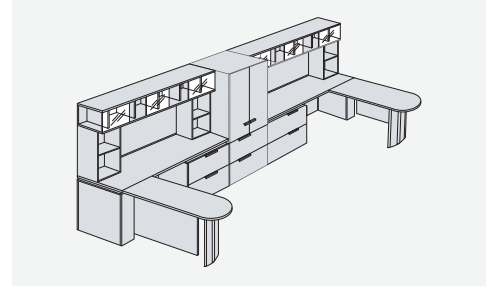

RECONFIGURABILITY AND MODULARITY

Configuration 2

Configuration 3

Configuration 4

Arguably the most advanced private office solution on the market today, VESTRADA™ takes the integration of casegoods furniture to a new level of function and sophistication. It is tech-savvy, and designed for the wired office. It is flexible and reconfigurable, and has an unparalleled range of components. It has research-driven solutions that enhance storage and document management. And every piece is made with precision, hand-craftsmanship, and the very finest materials.
