Nora

Designed by the Davis Design Team

A robust depth of line and universal design aesthetic allows Nora to function well in a range of applications and environments. With one, two, and three seat lounge units and benches, plus tables offered in seven unique sizes, Nora can be used individually or combined to create a variety of communal lounge spaces. Defined by its minimalistic appearance and finely tailored details, Nora can fit in a multitude of interiors.

Nora is a contemporary collection that blurs the lines between contract and residential design. This lounge, bench, and table series blends the comforts of home with commercial durability and versatility while its minimalistic design opens the door to a range of material and finish options. Tied together by simple forms, clean lines, and consistent attention to subtle details, the Nora Collection appeals to a sense of timelessness while maintaining a modern edge.

Nora tables are offered in seven unique sizes with a variety of finish options. Designed to be incredibly sturdy with solid steel legs, Nora tables can be paired with high-end surface options such as marble, solid wood, back painted glass, and veneer. The tables heights are staggered, designed to be perfect for nesting.
