Q5

Designed by Jonathan Prestwich

Jonathan Prestwich's Q5 Collection creates working environments designed to transition between seating for an intimate conversation, large collaborative gathering, or a sprawling expanse of personal space.

The beautifully styled bench series allows multiple configurations using only five pieces. The angular, low profile benches feature a trapezoid profile that adds architectural intrigue as well as enhanced functionality. Q5 features a double needle stitch with welting detail which allows for contrasting fabric and welting options.

With Q5, designers can mix-and-match pieces to create flexible and comfortable seating areas that are entirely unique. Whether it be in lobbies and waiting areas, collaborative areas, or for alternative conferencing, Q5 provides the ideal seating variety.
