TUNE...designed to work in harmony with the world

Elegance. Intellect. The TUNE Collection from Davis is a symphony of both. A masterpiece of design, this versatile table collection brings form and functionality to every size of gathering, from bustling conference rooms to intimate meetings.

With its dramatic wood grain veneers and gracefully sculpted metal frames, TUNE is a treasure to behold. Experience the collection first hand, and you'll agree it's a necessary luxury that adds both sense and sensibility to any workspace.

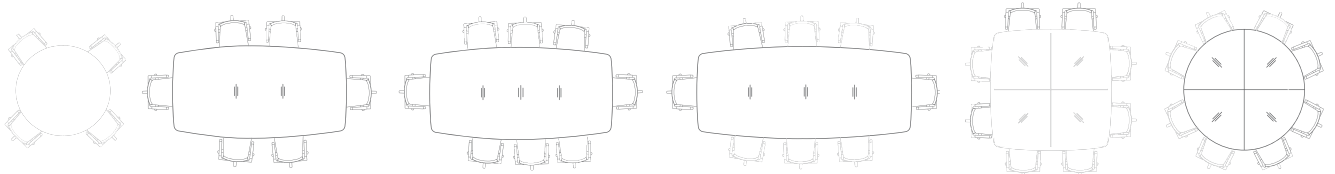

TUNE...a more sophisticated way to conduct meetings

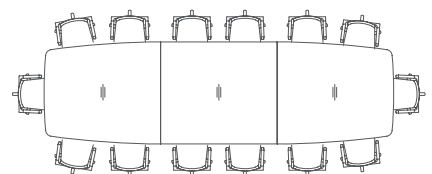

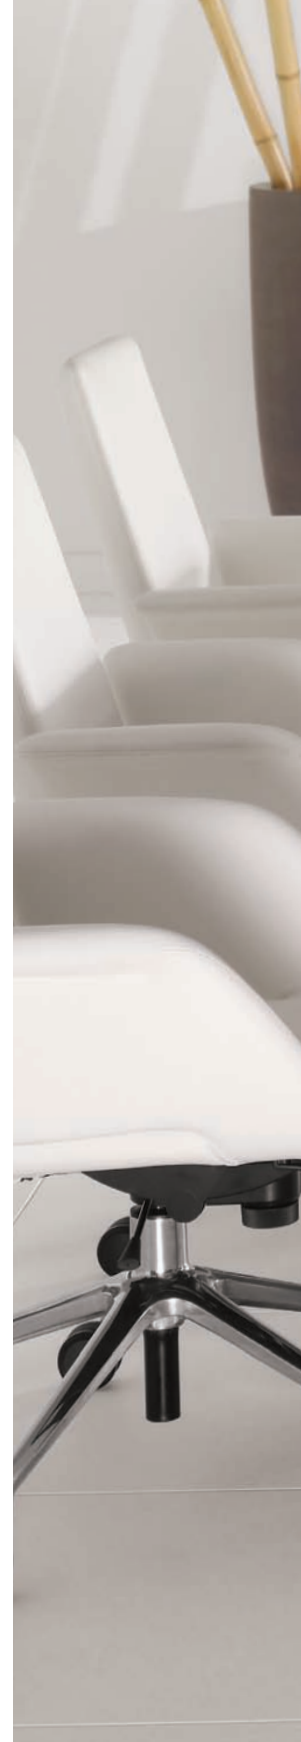

Never has the professional felt so personal. TUNE meeting tables bring a refined, yet calming, aesthetic to assemblies of ten or fewer guests.

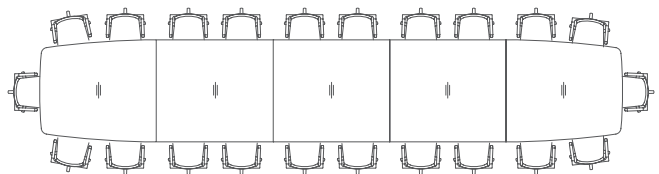

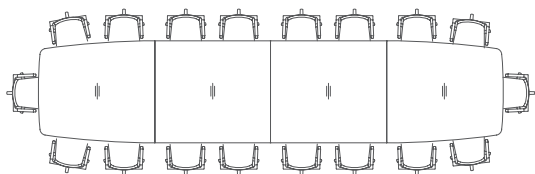

Unlike other pieces in the collection, TUNE freestanding meeting tables feature jewel-like cross bases that showcase a unique mitered connection.

TUNE...transforming conferences into works of art

The eyes dance along the subtle curves and soft lines of the TUNE conferencing tables. As sleek and stylish as their counterparts in the collection, their striking beauty belies their innate ability to keep everyone at the table focused and connected.

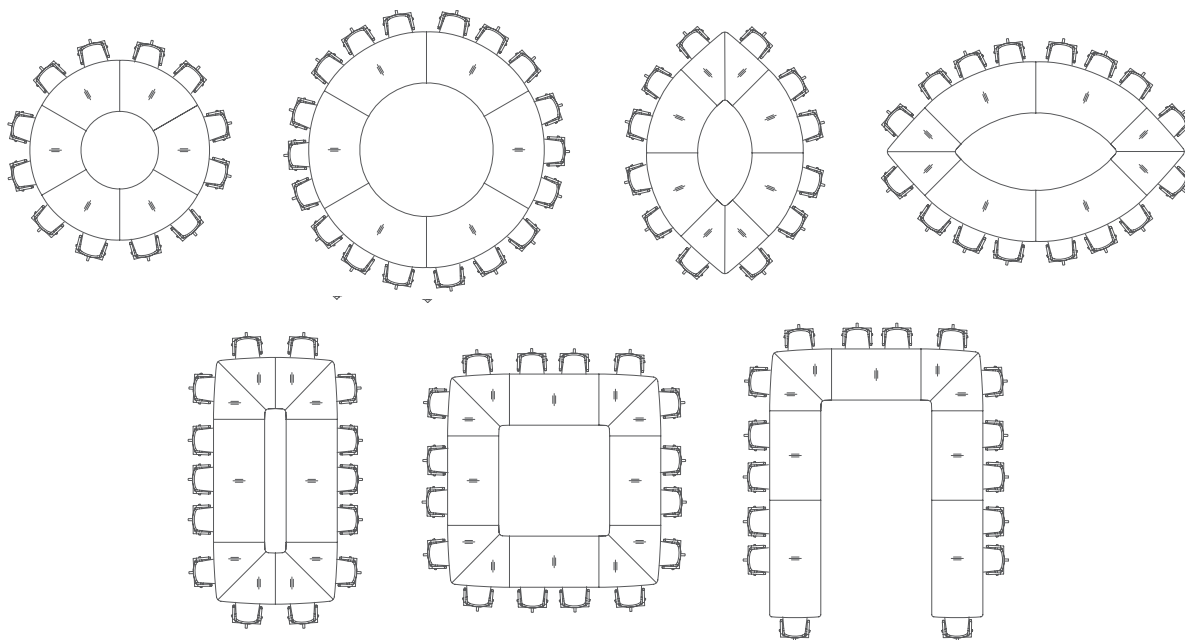

TUNE...a celebrated movement in adaptable design

Whether entertaining groups large or small, gathering for conversation, or focusing on a presentation, TUNE modular tables provide the flexibility to fit any occasion.

Style is always forefront in the TUNE Collection, as evidenced by subtle nuances in the round and square modular table configurations. These shapes feature tops with mitered grain patterns at the joints for a dazzling and dramatic appearance.

TUNE...a collection that connects with its users

These simple, yet brilliantly designed tables never fail to meet the needs of the people seated around them. From the first glance to first formal gathering, TUNE becomes the foundation for a successful meeting.

TUNE...unpretentious beauty with understated intelligence

Quality materials and timeless craftsmanship are the hallmarks of every piece that Davis offers, and the TUNE Collection is certainly no exception.

A leather-wrapped center band creates a clutter-free visual plane by discreetly hiding power and data outlets and rendering drink coasters obsolete.

The delicately angled, stylish metal frames conceal power and data cables running from floor outlets through a magnetic channel to the connection troughs under each table. A variety of Oak, Walnut, and Zebrano veneers have been selected for their visual impact. For added discretion, modesty panels are available on many pieces within the TUNE Collection.

3101 White Oak

3102 Coco Oak

3103 Grey Oak

3201 Natural Walnut

3202 Medium Walnut

3301 Natural Zebrano

3302 Grey Zebrano
