

SPENCE

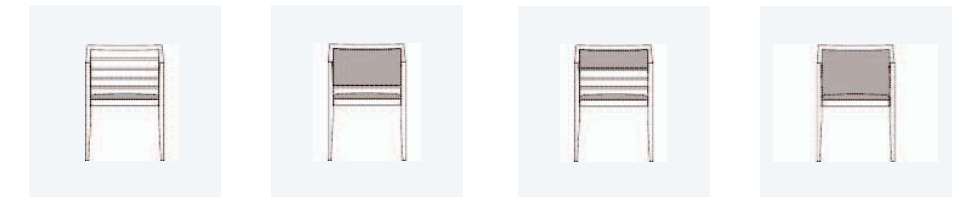

1401

Beginning with the very best hardwoods, selected and kiln-dried on our premises, we use time-honored processes to create some of the world's best wood seating: steam bending, the most durable frame construction techniques, and our renowned long-life finish. Spence has a wealth of flushed joints that are

painstakingly sanded by hand to achieve the perfect fit and finish. A range of options include the striking slat back, a fully upholstered back, a three-quarter upholstered back, and a half-upholstered back with two wood slats. Three wood species – Cherry, Maple and Oak – are available in a selection of standard finishes or in custom stains.

Krug offers an extensive range of furnishings for private office and conferencing, and a comprehensive seating collection. A company-wide program is in place to reduce the impact of our products and process on the environment. For a copy of this program, or more information about products, please contact your local Krug representative, or Krug Customer Service.

Sleek modernity characterizes this contemporary seating design. Spence is subtle and spare enough so as not to overpower its setting, but has just enough presence to enliven it. It is a versatile complement to many kinds of space, including offices, meeting rooms, reception areas, cafeterias and restaurants, to name a few.
