

# NYC Lounge

## NYC LOUNGE

NYC is more than a single line of furniture. Rather, its flexible understructure supports four, well-differentiated upholstery styles designed to utilize space in a most elegant, efficient fashion.

The four styles—Wrap-Over, Standard, Relaxed, and Loose—each convey a different mood. Each has its own vocabulary. And each speaks its own language according to how it is specified.

## WRAP-OVER

\_Wrap-Over is characterized by a back cushion that overlays not just the front of the supporting plinth, but also the top of the underlying back frame. It presents a well-organized and gracious executive appearance.

## STANDARD

\_Standard has a modern vibe, harmoniously blending rectangular forms to create a solid presence. This is a classic look that will coordinate well with many corporate and institutional interiors.

## RELAXED

\_Relaxed is truly luxurious and soft with an appearance markedly less structured than Wrap-Over or Standard. Despite its seemingly informal personality, Relaxed makes an exceedingly rich statement in any environment.

## LOOSE

\_Loose is casual, in a refined way. A variety of suitable back cushions are available from Stylex, or you may purchase back cushions elsewhere for a customized look.
