

## Theatre

Theatre is a versatile collection of patient room casegoods ranging from traditional to transitional, crafted to support the needs of patients, families and caregivers within one line. Theatre offers many standard built in features and optional upgrades that enhance the beauty and performance of the

patient room. The ability to choose base rails, drawer and door fronts, edges, and hardware provide design options tailored to each project. Theatre scales the spectrum of healthcare design to create the optimal patient care experience.

w44" d25" h71.25"

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
