

With space seemingly always at a premium, Maren folding chair provides a comfortable and stylish seating option for additional guests when needed. Paint, plastic and upholstery options allow design flexibility.

An optional wall mounted bracket neatly and compactly stores Maren out of the way when not in use.

Wall hanging bracket for storage when not in use

Durable metal frame available in Bone White or Chalk

Vented plastic for additional comfort

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them, can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
