classic styling affordably priced

Attractive details at an unparalleled value are the cornerstone of Brogan casegoods. Leather tops are bordered by decorative picture frame molding that is hand applied. Modular, non-handed units promote reconfigurability and create additional solutions for the private office.

brogan

Adjustable Height Private Office

Traditional furniture adapted to meet modern demands, incorporating adjustable height workspaces for active work styles. Grille doors in antique brass or antique pewter with glass backing offer an executive feel while keeping readily accessible files visible. (Double pedestal desk with Ergo height adjustability, grille overhead doors, lateral file, and Harbor seating.)

Table Desk Private Office

Pedestal desks add more storage whereas table or peninsula desks offer minimal, clean lines. Choose a tackboard for notes and reminders or a veneer back panel for simple elegance. (Table desk, kneespace credenza, wood door overhead, tall storage and Harbor seating.)

Peninsula L Unit

Easily specify L Units with minimal models and optimal storage in small or large footprints. Stay productive with tilt out power and data centers mounted within the worksurface. (Bullet peninsula desk with power, lateral return, wood door overhead, modular bookcase storage and Harbor seating.)

Single Pedestal L Unit

It's all in the details. Customize storage with glass, grille or wood overhead doors. Create functionality with a center drawer and writing shelf. Organize and display with the best of modular bookcases and lateral files. (Single pedestal desk with return, glass door overhead, and modular storage. Shown with Harbor swivel and Boston bench.)

complementary tables

Brogan's collection includes tables from the meeting room to the waiting area. Conference tables complement its casegoods counterpart with cabriole legs or panel bases with picture frame molding. Occasional tables add simple charm with fluted legs and traditional edge profile.
