

Hightower™

Adapt Seating Collection

The Adapt collection is exactly as it sounds... Fully adaptable for different uses, spaces, and aesthetic needs. This assortment of chairs, settees, and sofas combine limitless possibilities with unparalleled style.

“Seams” About Right

Beautiful at first sight, but even better with a second look. The details of Adapt — soft curves, tailored French seams, sleek metal components - create an elevated, yet inviting aesthetic that is hard to ignore.

Curve Appeal

Say goodbye to boxy and uncomfortable modular seating. Adapt brings curves and cushion to all the right places, drawing the user in (and encouraging them to stay awhile). Specify the curved settee pieces to add an even more organic feel to a space.

Mix It Up

Options for a multitude of contrasting fabrics give you the power to get creative and play with color and texture. Whether in bold patterns or in subtle neutrals, our expert upholstery team will ensure Adapt is stunning and statement-making.

Gang's All Here

Complete the ideal seating space with the addition of complementary ganging tables. The square tables may be attached to the end of a unit or floating between 2 units, while the round pivoting table is a perfect place to set that morning cup of coffee.

Configure It Out

The only limit to Adapt's flexibility is your imagination. From a small booth to a sweeping banquette, the options for configurations are endless. Get creative with straight or curved pieces and build out a seating destination that is perfectly tailored to your space.

Designed Down Under

Made in the USA

Adapt, designed by Ross Gardam, is Hightower's first foray into Australian design. While we may be best known for our European designs, the Australian aesthetic is quickly taking hold internationally and Adapt had us at hello. With a relaxed and calm expression, this series is a reflection of the Australian lifestyle and right at home in a variety of spaces.

Watch your space take shape

Lounge in a lowback or hide out in a highback. Whichever level of privacy your space needs, Adapt is the perfect fit.
