

Gimbal Highback and Gimbal Low Lounge

Hightower®

## Gimbal

Comfort, style, and innovation come together in beautiful harmony in the Gimbal Collection. A lounge chair unlike any other, these pieces will quickly become a fought-over hangout space in any environment.

## What Moves You?

Fidgeters unite! Gimbal Rockers feature a unique base that allows for subtle rocking while you're working, chatting, or scrolling the interwebs. Or if you'd rather take a turn side-to-side, Gimbal with Swivel provides a smooth option. Get settled and focus easier by letting the movement of Gimbal coax you into staying awhile longer.

### Comfy is an Understatement

When you take a seat in Gimbal, you may just never want to leave. The built-in, down-filled pillow wraps around the seat, serving as both lumbar support and added cushion (not to mention the feeling of a friendly hug). Be sure to block out your calendar for a while when you opt to take a break in one of these lounge chairs.

### Find Your Haven

Built for privacy and seclusion, Gimbal Highback is an oasis in the making. The perfect place to take a phone call, crank out some focused work, or simply snag a short snooze, this piece is a Hightower favorite for a reason!

## Bust a Move

No need for structured stillness... Gimbals Lounge Chairs bring the movement and fun anywhere they're placed. Pair these lounge chairs with any number of tables from the Hightower Studio collection to create the most sought-after lounge area in any space.
