

MEET
REQUISITE.®

REQUISITE MIDBACK,
ALUMINUM LOOP ARMS AND BASE,
KNEE TILT MECHANISM.

DESIGN. MEET DETAIL.

Requisite is a series of seating solutions that bring together creativity and economy, innovation and stability, first and lasting impressions. All equate to an ideal solution for conference or executive spaces. In the development of Requisite, designer Todd Yetman built on his experience developing industry-recognized, award-winning seating solutions. All aspects of the design have been carefully considered to deliver the greatest value.

SUPPORT. MEET STRUCTURE.

A highly durable all-steel frame allows the back to flex to support lengthier conversations and a more comfortable sitting experience. Choose a synchro-tilt mechanism that simultaneously tilts as you lean back, or a knee tilt mechanism to provide the maximum recline. In keeping with our commitment to providing solid ergonomic solutions, adjustments can be made conveniently from the seated position. Design options include polished aluminum, smoke and black frame finishes, three arm styles, two back heights and two mechanisms in order to tailor Requisite to your specific needs.
