Blueprint

# Blueprint

Blueprint is a versatile seating solution that can be used as a dining chair, counter stool, and bar stool. This dining collection seamlessly blends function and design, creating a beautiful and practical solution. Blueprint features smooth, rounded curves and an optional leather handle for mobility. The combination of beauty, durability, ergonomic design, and ease of use make this chair an ideal choice.

## Thought starters

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
