

ENWORK

# VOU Conference

An innovative series of V, O, and U-shaped tables designed for in-person and virtual conferencing. VOU features clean lines, precise tolerances, and a light design crispness that's traditional in concept yet modern in execution. This results in a remarkably versatile table collection perfectly suited for today's hybrid meeting environments.

## Product Details

- Tops are 30" deep. Widths are sized for 30" per guest.
- Tops overhang bases by 3" on the inside of the bases and on the ends.
- Bases are 9"D with removable panels underneath top for full power/data access. Knee space is 18"D.
- Bases have openings at the bottom for floor core access.
- V- and U-shaped tables include a 24"D end panel at the end of each run.
- VOU tables are available in 90-degree and radius corners. Top surfaces feature precision mitered construction at the corners.
- Radius corners have a 5" outer radius.
- V-shaped tables are available with 95-, 100-, and 150-degree configurations.
- O-shaped tables come with a removable 30"W section to access the inner portion of the table for presenting or cleaning.
- A variety of Enwork standard power/data units are available, including Ghost, Ellora, Alpha, and Satellite.
- Optional painted or polished aluminum trim is available.
- Optional LED accent lighting is embedded underneath the surface and operated with a single button switch.

Optional under-surface LED lighting

LED lighting button switch

30" removable section for O-shape tables

Optional glass top

Rectangular or 5" radiused corners

## VOU Power Systems

Integrated power systems

Each interior panel is removable for easy access to power.

## VOU Power System Options

Other power units, such as Satellite, can be ordered separately.

**Ghost**  
Our most refined look for glass tables.

**Ellora B**  
Squared corners complement 90-degree tops.

**Alpha**  
Rounded corners pair beautifully with radiused tops.

**Satellite™**  
Out of sight and out of the way.

V-Shaped Table

O-Shaped Table with  
removable center section

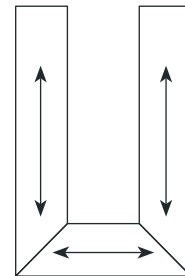

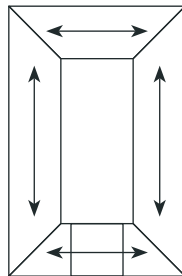

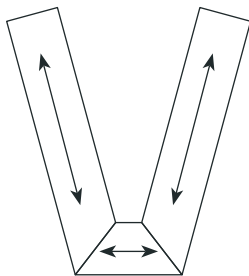

U-Shaped Table

## VOU Tops & Grain Direction

VOU tables are available in a rectangular or rounded shape and include mitered corners. Rounded-shape tops have a 5" outer radius.

↔ = Laminate grain direction (veneer is always short grain).

Important Laminate Note: Great care is taken by Enwork craftspeople to deliver a beautiful table that optimizes grain match. Perfect grain match on V, O, and U-shaped tables is not possible at all seams in all directions. Priority is given to grain match the long direction first. Grain match on mitered corners is optimized second and grain match along the short side is optimized third.

## V-Shaped Table Angles

V-Shaped tables are available with 95-, 100-, and 150-degree corner bases. The 95-degree and 100-degree bases are designed for conference applications. The 150-degree base is designed for wide-angle teleconference applications.

95-degree

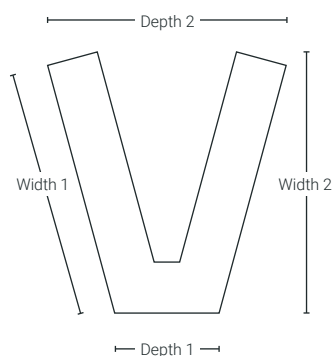

100-degree

150-degree

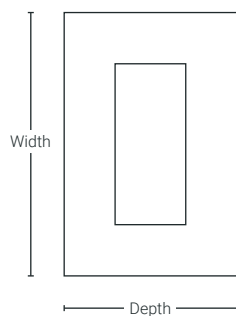

## V-Shaped Dimensions

Width 1 and Depth 1 apply to all angles. Width 2 and Depth 2 refer to overall footprint. Tops are always 30" deep.

Width 1	Depth 1	Guests	Power Units	95 degrees		100 degrees		150 degrees	
				Width 2	Depth 2	Width 2	Depth 2	Width 2	Depth 2
60"	60"	6	3	63"	71"	65"	81"	56"	164"
90"	60"	8	5	93"	76"	94"	92"	71"	216"
